	Manufacturer's Rep.: _____ Approved By: _____

<b>TECHNICAL DATA</b>	<b>Material:</b>	PP-RCT (beta crystalline random copolymer polypropylene)	
	<b>Standard Grade Hydrostatic Ratings for SDR 9 (50 year):</b>	120 psi @ 180°F 177 psi @ 140°F 335 psi @ 68°F	
	<b>Linear Expansion Rate:</b>	0.23 in/10°F/100 ft	

### PRODUCT INFORMATION AND APPLICATION USE

Niron Clima PP-RCT pipe is a multilayer pipe extruded with a **Powercore™** middle layer containing fiberglass, and is solid grey in color. The pipe is used for a variety of HVAC, compressed air and chemical piping services. The middle layer with added fiberglass material restricts the thermal expansion and contraction of the pipe compared to monolayer materials and is therefore useful for applications with wide temperature swings. The middle layer with added fiberglass also helps to stiffen the pipe which assists in aboveground support. Niron Clima PP-RCT piping may also be used in hot and cold potable water services.

	DESCRIPTION	PART NUMBER	I.D.	O.D.	WEIGHT
<input type="checkbox"/>	½" Niron Clima PP-RCT Pipe, SDR 7.3, 20' Length	27TNIRCL2073	0.57	0.79	0.10
